compensation to other Party for any loss or damage on account of such delay in approval of the Appropriate Commission/SERC.

2.2 *Term of Agreement*

2.2.1 Subject to Article 2.3 and 2.4 of this Agreement, this Agreement shall be valid for a term from the Effective Date until the Expiry Date. This Agreement may be extended for a further period at least one hundred eighty (180) days prior to the Expiry Date, on mutually agreed terms and conditions.

2.2.2 The SPD is free to operate their plants beyond the Expiry Date if other conditions like land lease / Right to Use of Land (as applicable), permits, approvals and clearances etc. allow. In such case unless otherwise agreed by the **Insert Name of the DISCOM, Insert Name of the DISCOM** (as the case may be) shall not be obligated to procure power beyond the Expiry Date.

2.3 *Early Termination*

2.3.1 This Agreement shall terminate before the Expiry Date if either **Insert Name of the DISCOM** or SPD terminates the Agreement, pursuant to Article 13 of this Agreement.

2.4 *Survival*

2.4.1 The expiry or termination of this Agreement shall not affect any accrued rights, obligations and liabilities of the Parties under this Agreement, including the right to receive penalty as per the terms of this Agreement, nor shall it affect the survival of any continuing obligations for which this Agreement provides, either expressly or by necessary implication, which are to survive after the Expiry Date or termination including those under Article 11 (Force Majeure), Article 13 (Events of Default and Termination), Article 14 (Liability and Indemnification), Article 16 (Governing Law and Dispute Resolution), Article 17 (Miscellaneous Provisions), and other Articles and Schedules of this Agreement which expressly or by their nature survive the Term or termination of this Agreement shall continue and survive any expiry or termination of this Agreement.

ARTICLE 3: INSTALLED CAPACITY AND PERFORMANCE SECURITY

3.1 Installed Capacity

3.1.1 The SPD shall configure the project with the objective of supplying solar power to the **Insert Name of the DISCOM**. Accordingly, the Project Capacity, i.e. the Installed Capacity shall mean the rated capacities of the Solar Power Project and ESS components, in the following configuration:

Solar: ____MW

ESS: ____MW/____MWh

3.1.2 The above configuration shall be identical to the “installed capacity” for which connectivity has been granted to the SPD under the GNA/Telangana STU Regulations. Also, any change in Delivery Point is allowed up to the deadline for Financial Closure as per Article 3.4 of this Agreement.

a. In this regard, any change in Delivery Point from the one mentioned in the Covering Letter at the time of bid submission shall be allowed till the deadline to apply for connectivity, without any condition.

b. Subsequent to deadline to apply for connectivity, any change in Delivery Point shall be allowed by **Insert Name of the DISCOM** only in case the scheduled commissioning date of the ISTS-substation/Telangana STU Substation of the proposed revised Delivery Point is on or before the scheduled commissioning date of the existing Delivery Point of the Project, at the time of seeking approval from **Insert Name of the DISCOM** by the SPD.

In this case, the SPD will be required to apply for connectivity at the proposed substation within 7 working days of intimation of approval for the same by **Insert Name of the DISCOM**.

In case the SPD fails to obtain connectivity on account of reasons attributable to it, including but not limited to failure to apply for connectivity within the above deadline, the SPD will not be eligible for corresponding extension in the timelines for meeting the Project milestones.

3.1.3 Energy Storage Systems (ESS) of at least 0.33 MW/2 MWh capacity for 1 MW Project Capacity shall mandatorily be installed by the SPD as part of the Project. It is clarified that ESS charged using a source other than solar power would not qualify as solar power. For avoidance of any doubt, it is hereby clarified that ESS may be owned by the SPD or may be tied-up separately with a third party by the SPD, for

supply of power. The ESS technology can be changed by the SPD at any time during the Term of the PPA. Any change in the ESS component during the term of the PPA shall be at risk and cost of the SPD and under intimation to **Insert Name of the DISCOM**.

3.2 Performance Bank Guarantee/ Payment on Order Instrument/ Insurance Surety Bond

3.2.1 The Performance Bank Guarantee (PBG)/ Payment on Order Instrument (POI)/ Insurance Surety Bond having validity from the date of submission of PBG/POI/ Surety Bond until (insert validity period as per RfS conditions), submitted for a value of Rs. _____ (in words) under this Agreement, shall be for guaranteeing the commencement of the supply of power up to the Contracted Capacity within the time specified in this Agreement as per format provided in Schedule 1/2/3.

3.2.2 The failure on the part of the SPD to furnish and maintain the Performance Bank Guarantee/ POI/ Surety Bond shall be a material breach of the term of this Agreement on the part of the SPD.

3.2.3 If the SPD fails to commence supply of power from SCSD specified in this Agreement or any further extension thereof granted by TGREDCO/**Insert Name of the DISCOM**, subject to conditions mentioned in Article 4.5, TGREDCO shall encash the Performance Bank Guarantee/ POI equivalent to the amount calculated as per penalties applicable under Article 4.6 as on the date of encashment without prejudice to the other rights of TGREDCO/ **Insert Name of the DISCOM** under this Agreement. It is to be noted that the damages/dues recovered by TGREDCO/ **Insert Name of the DISCOM** by encashing the PBG/ POI, upon the default of the SPD under the PPA, shall be credited to the payment security fund maintained by **TGREDCO** under the PPA.

3.3 Return of Performance Bank Guarantee/ Payment on Order Instrument/ Insurance Surety Bond

3.3.1 Subject to Article 3.2, TGREDCO shall return / release the Performance Bank Guarantee/ Payment on Order Instrument/ Surety Bond within 45 days after the successful Commissioning from the Project after taking into account any liquidated damages / penalties due to delays in Commissioning beyond SCSD as per provisions stipulated in this Agreement. In case of part-commencement of supply of power, PBG corresponding to such capacity shall be released within 45 days of the actual commencement of supply of power from such part-capacity.

3.3.2 The return / release of the Performance Bank Guarantee/ Payment on Order Instrument/ Insurance Surety Bond shall be without prejudice to other rights of TGREDCO under this Agreement.

3.4 Achievement of Financial Closure

The SPD agrees and undertakes to duly perform and complete all of the following activities to achieve Financial Closure, at the SPD's own cost and risk, by the date as on 6 months prior to the SCSD/ extended SCSD:

- a) The SPD shall make Project financing arrangements and shall provide necessary certificates to TGREDCO/ **Insert Name of the DISCOM** in this regard;
- b) The SPD shall submit the details of all planned/proposed solar panels, inverters, ESS and produce the documentary evidence of the same.

3.5 Consequences of non-achievement of Financial Closure

3.5.1 In case of a failure to submit the documents as above, TGREDCO shall encash the Performance Bank Guarantee/Payment on Order Instrument/ Surety Bond submitted by the SPD, and may terminate this Agreement and remove the Project from the list of the selected Projects by giving a notice to the SPD in writing of at least seven (7) days. Unless extended as per provisions of Article 3.5.2 of this Agreement in writing, **Insert Name of the DISCOM** may terminate this Agreement upon the expiry of the 7th day of the above notice.

3.5.2 An extension, without any impact on the Scheduled Commencement of Supply Date, may however be considered till SCSD/revised SCSD of the Project, on the sole request of SPD, on payment of Rs. 100/- per day per MW + applicable GST to TGREDCO/ **Insert Name of the DISCOM**. Such extension charges are required to be paid to TGREDCO/ **Insert Name of the DISCOM** in advance, for the period of extension required. In case of any delay in depositing this extension charge, SPD shall pay an interest on this extension charge for the days lapsed beyond due date of Financial Closure @ SBI-MCLR (1Year). In case such delay in making payment of the extension charges to TGREDCO/ **Insert Name of the DISCOM** is more than 7 days. **Insert Name of the DISCOM** may terminate this Agreement upon the expiry of such 7th day. In case of the SPD meeting the requirements of Financial Closure before the last date of such proposed delay period (for which extension charges have been paid), the remaining amount deposited by the SPD shall be returned by

TGREDCO/ **Insert Name of the DISCOM** without interest. This extension will not have any impact on the Scheduled Commencement of Supply Date. Any extension charges paid so by the SPD, shall be returned to the SPD without any GST amount and interest on achievement of successful Commissioning within the Scheduled Commencement of Supply Date, on pro-rata basis, based on the Contracted Capacity that has commenced supply of power as on Scheduled Commencement of Supply Date. However, in case the SPD fails to start Commissioning from the Contracted Capacity by Scheduled Commencement of Supply Date, the extension charges deposited by the SPD shall not be refunded by TGREDCO/ **Insert Name of the DISCOM**. For the avoidance of doubt, it is clarified that this Article shall survive the termination of this Agreement.

ARTICLE 4: CONSTRUCTION & DEVELOPMENT OF THE PROJECT

4.1 *SPD's Obligations*

4.1.1 The SPD undertakes to be responsible, at SPD's own cost and risk, for the following:

- a) The SPD shall be solely responsible and make arrangements for land & associated infrastructure for development of the Project and for Connectivity with the ISTS/Telangana STU System (connectivity can be taken by SPD, up to the Contracted Capacity, at different Interconnection Points) for confirming the availability of power system required for supply of power by the SCSD and all clearances related thereto. In the case of ESS component (i.e. PSP), which is not co-located with Solar PV component (i.e. standalone ESS), SPD may obtain separate connectivity for such standalone ESS component up to 50% of the Contracted Capacity.
- b) Obtaining all Consents, Clearances (including Environmental clearance, if applicable) and Permits as required and maintaining all Consents, Clearances and Permits in full force and effect during the Term of this Agreement. TGREDCO/**Insert Name of the DISCOM** shall have no obligation to recommend to any department/agency or the Govt. for the grant/permission for the Solar Power project. The Solar Power Developer shall, on his own, obtain permissions/sanctions from Government authorities, if any required for establishing the Project. Any steps that may be taken by TGREDCO/**Insert Name of the DISCOM** in regard to grant of such consents and permits or any other approval to be taken by the SPD shall only be a voluntary facilitating endeavour on the part of TGREDCO/**Insert Name of the DISCOM** with no intention of being bound by any legal or binding obligation.
- c) Designing, constructing, erecting, commissioning, completing and testing the Power Project in accordance with the applicable Law, the Grid Code, the terms and conditions of this Agreement and Prudent Utility Practices.
- d) The SPD shall make adequate arrangements to connect the Power Project switchyard with the Interconnection Facilities at Interconnection / Metering / Delivery Point to connect the Power project switchyard with the Interconnection facilities at the Delivery Point.
- e) Obtaining Connectivity and executing connectivity agreement as per provision of GNA/Telangana STU regulation issued by CERC/SERC, for evacuation of the Contracted Capacity and maintaining it throughout the term of the Agreement. It is further clarified that the Entities (SPD and Buying Entity) as indicated in the

detailed procedure issued subsequently under the Central Electricity Regulatory Commission (Connectivity and General Network Access to the inter-State Transmission System) Regulations, 2022, will be responsible for their respective obligation as notified in the detailed procedure irrespective of the provisions of the RfS and PPA. In the case of standalone ESS (i.e. PSP), the SPD shall be solely responsible for obtaining the required additional GNA and Connectivity for charging such ESS component. No extension in the SCSD or the extended SCSD shall be granted on account of any delay in obtaining such GNA or connectivity by the SPD.

- f) The commencement of supply of power up to the Contracted Capacity to **Insert Name of the DISCOM** no later than the SCSD and continuance of the supply of power in line with Article 4.4 of this Agreement throughout the term of the Agreement.
- g) Owning the Project throughout the Term of Agreement free and clear of encumbrances, except those expressly permitted under Article 15.
- h) Maintaining minimum 51% shareholding prevalent at the time of signing of PPA up to a period of one (1) year after the SCSD in line with Clause 22 of the RfS;
- i) Providing a discount of Rs. 0.02/kWh in the monthly billing which will be apportioned towards the payment security mechanism to be maintained under Article 10.1.1 of this Agreement. (To be applicable in case the SPD has opted for this discounting in lieu of Payment Security Mechanism. Strike it out if not applicable)
- j) Fulfilling all obligations undertaken by the SPD under this Agreement and also as per the terms of the RfS.
- k) The SPD shall be responsible to for directly coordinating and dealing with the corresponding Buying Entity(ies), Load Dispatch Centres, Regional Power Committees, and other authorities in all respects in regard to declaration of availability, scheduling and dispatch of Solar Power and due compliance with deviation and settlement mechanism and the applicable Grid code/State/Central Regulations, acknowledging that the SPD and the corresponding Buying Entity(ies) are the Grid connected entities.
- l) For the Solar PV and ESS components, the SPD shall fulfil the technical requirements according to criteria mentioned under Annexure-B and Annexure-E of the RfS, respectively. Solar PV modules and solar PV cells used in the Project

shall be sourced only from the models and manufacturers included in the List-I (for solar PV modules) and List-II (for solar PV cells) under the “Approved List of Models and Manufacturers” as published by MNRE and valid as on the date of invoicing of such modules.

- m) The SPD shall be solely responsible for and obligated to ensure that the Project being implemented under this Agreement shall fulfil the criteria as per Central Electricity Authority (Technical Standards for Connectivity to the Grid) Regulations, 2007, and subsequent amendments and clarifications thereof.
- n) As part of scheduling of power from the Project, the SPD will be required to punch-in its respective schedules along with subsequent revisions in such schedules, by itself, at the interfaces of all the RLDCs/SLDCs concerned for the corridor of power flow, including the RLDC/SLDCs of the Buying Entity(ies), as per the Regulations in force, under intimation to TGREDCO/ **Insert Name of the DISCOM**. **Insert Name of the DISCOM** may facilitate in identification of any discrepancy and assist the SPD for its early rectification without any liability on **Insert Name of the DISCOM**. The SPD shall be solely responsible for discrepancy identification and its rectification to avoid any rejection/less payment of invoices.
- o) For the Project being implemented under this Agreement, the SPD shall submit a detailed completion Schedule for the Project prior to the signing of PPA. Broad details to be captured in the Schedule are the land procurement, grid connectivity; order, supply and erection status of various Project components; financial arrangement/ tie up etc. The SPD shall also submit the progress report to TGREDCO. **Insert Name of the DISCOM** in a form acceptable to TGREDCO/ **Insert Name of the DISCOM** and shall contain percentage completion achieved compared with the planned percentage completion for each activity, and any such other information as required by TGREDCO/ **Insert Name of the DISCOM**. The SPD shall be required to submit the progress status of Project to TGREDCO/ **Insert Name of the DISCOM** as and when requested by TGREDCO, strictly within the timelines provided by TGREDCO/ **Insert Name of the DISCOM**. Further, on 5th day of every calendar month, the SPD shall be required to submit the Project progress status as per as per Annexure-D of the RfS the format as desired by **Insert Name of the DISCOM**. In case of failure to comply with the same, TGREDCO/ **Insert Name of the DISCOM** at its discretion, may or may not consider the SCSD extension request of the SPD.

- p) SPD shall comply with applicable cyber security regulations, directives, and guidelines issued by the Central Government Authorities dealing with cyber security.

4.2 *Information regarding Interconnection Facilities*

- 4.2.1 The SPD shall be required to obtain all information from the Telangana STU/CTU/concerned authority with regard to the Interconnection Facilities as is reasonably necessary to enable it to design, install and operate all interconnection plant and apparatus on the SPD's side of the Delivery Point to enable delivery of electricity at the Delivery Point. The transmission of power up to the point of interconnection where the metering is done for energy accounting shall be the responsibility of the SPD at his own cost.
- 4.2.2 Penalties, fines and charges, etc. imposed by the CTU/ Telangana STU under any statute or guidelines in relation to delay in commissioning of the Project shall be entirely dealt by the SPD and any such amounts claimed by such agency(ies) shall be payable by the SPD.
- 4.2.3 The responsibility of getting connectivity with the transmission system up to the Interconnection Point, will lie with the SPD. The transmission of power up to the point of interconnection where the metering is done for energy accounting shall be the responsibility of the SPD at his own cost. The maintenance of Transmission system up to the designated point as per the applicable terms and conditions shall be the responsibility of the SPD to be obtained at his own cost. All costs and charges including but not limited to the wheeling charges and losses up to and including at the Interconnection Point associated with this arrangement will also be borne by the SPD.
- 4.2.4 In case of Pooling substation, losses in the transmission line shall be apportioned among the SPDs who share such a Pooling arrangement and duly signed by all SPDs, based on their monthly generation.
- 4.2.5 The arrangement of connectivity shall be made by the SPD through a transmission line. The entire cost of transmission including cost of construction of line, any other charges, losses etc. from the Project up to the Interconnection Point will be borne by the SPD. In case of non-availability of Grid and Transmission System during Term of this Agreement, for reasons not attributable to the SPD, provisions of Article 4.10 shall be applicable.
- 4.2.6 ISTS charges and losses on transmission of power, including waiver for solar power, shall be applicable as per extant regulations. Government of India/CERC at its sole

discretion, from time to time, issues order for waiver of inter-state transmission system (ISTS) charges and losses on transmission of solar power till a certain date. In case Commissioning from the Project gets delayed beyond the applicable date of ISTS waiver, arising out of any reasons whatsoever, **Insert Name of the DISCOM** shall bear no liability with respect to transmission charges and losses levied, if any. Delay in Project commissioning beyond the deadline as stipulated by the Government of India, and treatment of ISTS charges and losses thereof, shall be dealt in line with the Central Electricity Regulatory Commission (Sharing of Inter-State Transmission Charges and Losses) (First Amendment) Regulations, 2023 dated 07.02.2023, and subsequent amendments and clarifications thereto, as applicable.

However, in case the SCSD is on or before the above deadline for ISTS waiver and Commissioning from the Project gets delayed beyond the applicable date of ISTS waiver and losses due to reasons solely attributable to the SPD, the liability of transmission charges and losses would be to the account of the SPD. In case of delay in Commissioning by the SPD even after the operationalization of GNA obtained by the Buying Entity, SPD shall be liable to pay the applicable CTU/Telangana STU transmission charges.

Subject to the above, it is however, clarified that ISTS charges and losses beyond the Delivery Point(s) shall be borne by the Buying Entity.

Treatment of power supplied from the ESS component, with respect to waiver of ISTS charges and losses, shall be governed by the applicable Rules/Orders issued by Ministry of Power/MNRE, read in conjunction with CERC's Orders and Regulations notified in this regard. Further, it is clarified that in case Commissioning from the ESS component of the Project configuration gets delayed beyond the applicable date of waiver of ISTS charges and losses, due to reasons solely attributable to the SPD, the liability of inter-state transmission charges and losses shall be borne by the SPD.

In case of delay in Commissioning by the SPD even after the operationalization of GNA/Telangana STU obtained by the Buying Entity, SPD shall be liable to pay the applicable CTU/Telangana STU transmission charges. In case the PSP is utilized as the ESS component, it may be located at a different location as a standalone component. In this case, all charges (including transmission charges and losses) associated with the charging of such ESS component shall be borne by the SPD.

4.3 Purchase and sale of Power within the Contracted Capacity

4.3.1 Subject to the terms and conditions of this Agreement, the SPD undertakes to sell solar power to **Insert Name of the DISCOM** and **Insert Name of the DISCOM**

undertakes to purchase such power and pay Tariff for all the energy supplied at the Delivery Point corresponding to the Contracted Capacity.

4.4 *Right to Contracted Capacity & Energy*

4.4.1 For supply of power in hours other than Peak Hours, the CUF declared by the SPD is _____(insert the amount as per TGREDCO's LoA). The SPD will be allowed to revise the CUF of the Project once within first year after the date of Commissioning from full Project Capacity. In case of revision in CUF, the revised CUF shall, in no case, be lower than the originally committed value. Subsequent to Commissioning from the Project, **Insert Name of the DISCOM**, in any Contract Year, except for the Contract Year ending on 31st March immediately after the date of commencement of power from the Project, shall not be obliged to purchase any additional energy from the SPD beyond Million kWh (MU) **[Insert value of energy corresponding to CUF of 110% of the declared CUF for the Project or the modified CUF]**. If for any Contract Year, except for the Contract Year ending on 31st March immediately after the date of commencement of power from the Project, it is found that the SPD has not been able to supply minimum energy amounting to Million kWh (MU) [Insert values corresponding to a CUF of 85% of the declared CUF for the project or the modified CUF] till the end of 10 years from the SCSD and Million kWh (MU) [Insert values corresponding to a CUF of 80% of the declared CUF for the project or the modified CUF] for the rest of the Term of the Agreement, save and except in case of Force Majeure, the SPD shall be liable to pay penalty to **Insert Name of the DISCOM**.

For the first year of operation of the Project, the above limits shall be considered for the complete year after the date of commencement of power from the Project. Subsequently, the annual CUF will be calculated every year from 1st April of the year to 31st March next year. Similarly, for the last year of operation of the Project, these limits shall be considered for the complete year before the expiry of the PPA. For example, if a Project starts commencement of power supply on 24.07.2027, the annual CUF for first year shall be calculated for the period from 24.07.2027 to 23.07.2030

The lower limit will, however, be relaxable by Buyer to the extent of Generation Compensation due to grid non-availability to the Project for evacuation which is beyond the control of the SPD as determined under provisions of Article 4.10.1. The amount of such penalty will be equal to 1.5 times the Applicable Tariff for the shortfall in energy terms, which in turn, shall be remitted to the Buying Entity. The

penalty as per above shall be applied on the amount of shortfall in generation from the Project during any Contract Year. This penalty shall not be applicable in events of Force Majeure identified under this Agreement, affecting supply of Solar Power by SPD.

4.4.1 (a) Scheduling and offtake of energy during Peak Hours

- i. The Buying Entity shall intimate the hours (which shall be 6 hours during a day) during which it intends to draw the energy from the ESS on daily basis. These 6 hours chosen by the Buying Entity for a day shall be the Peak Hours for that day. Buying Entity shall choose the 6 hours such that there is a continuous discharge from the ESS at least for 1 hour. The SPD is mandated to deliver 2000 kWh of energy per MW rated Project capacity of the project in AC terms, during Peak Hours as per the schedule given by the Buying Entity (i.e., For each 100 MW of project capacity, SPD shall supply up to 200,000 kWh of energy during Peak Hours), on a daily basis. Reconciliation of the same shall be carried out on a monthly basis. Modifications in the metering arrangement on account of the same, if any, shall be under the scope of the SPD, at its own risk and cost.
- ii. The SPD may supply the required energy during Peak Hours either from the stored energy in the ESS or from any Solar PV generation available during the Peak Hours.
- iii. “Peak Hours” in this case, shall be as defined in this Agreement. For each 100 MW of Contracted Capacity, as per the PPA, the Buying Entity may specify off-take of amount of power during any 6 hours out of the Peak Hours for off-take of 200,000 kWh of energy (with 33,333 kWh energy for each hour), on a daily basis.
- iv. It is clarified that the Buying Entity is mandated to off-take the stored energy on a daily basis, and may choose to schedule peak power supply as per its requirement. The discharge of energy during Peak Hours shall be governed by the demand pattern of the corresponding Buying Entity (ies), as per the Buying Entity’s schedule. In case of non-receipt of peak hours schedule from the Buying Entity by 6:00 AM in the morning on a particular day, SPD shall supply the peak power as per its own discretion to the Buying Entity during the Peak Hours of that day. The requirement of electricity supply during Peak Hours is to be mandatorily met on a day-to-day basis, and shall be monitored on a monthly basis.

- v. In order to allow optimization of operation of ESS component, the SPD is allowed to use the ESS component for any other application (including market operations such as third party sale or sale in power exchange) within the availability of connectivity, without requiring No Objection Certificate (NOC) from TGREDCO/**Insert Name of the DISCOM**, during Off-Peak Hours (hours other than Peak Hours). It may be noted that at any instance of energy supply from the Project, priority shall be accorded by SPD to meet the capacity requirements as per PPA, before selling any quantum in the open market. Any instance of third-party sale of power from the Project by the SPD, while the supply commitments under the PPA remains unfulfilled, shall constitute a breach of SPD's obligations under the PPA and render the SPD liable for penalty @1.5 times of extant market rate/kWh (reference rate being the highest of the applicable rates in the DAM/G-DAM/RTM of all the Power Exchanges operating in India on that day) for the quantum of such sale. This penalty will be levied over and above the penalty for shortfall in meeting the CUF requirement during hours other than Peak Hours and supply of energy during Peak Hours.
- vi. Any shortfall in supply of Peak Power below the requirement of Buying Entity as per this clause, shall be dealt as per Article 4.4.1(b) below.
- vii. The Buying Entity shall be required to intimate its choice of Peak Hours (which shall be 6 hours during a day) and Power requirement in the selected Peak Hours to SPD on daily basis latest by 06:00 AM of that day, which will be deemed to have been accepted by the SPD for supply of Peak Power. In this regard, it is hereby clarified that the Buying Entity shall choose the 6 hours such that there is a continuous supply at least for 1 hour. It is further clarified that the Buying Entities are mandated to off-take energy during Peak Hours @ 2 MWh for every 1 MW Contracted Capacity from the Project, with the energy to be off-taken in any hour being 0.333 MWh for every 1 MW Contracted Capacity. In this regard, energy supplied in any Peak Hour in excess of 0.333 MWh for every 1 MW Contracted Capacity shall be counted towards fulfilment of CUF criteria (for hours other than Peak Hours). Declaration of Peak Hours will be governed by the rules brought out in the definition of "Peak Hours" in this Agreement.
- viii. In case the BESS is utilized as the ESS component or in cases where the PSP is co-located with the solar PV component, grid charging of the ESS shall not be permitted under this PPA, except to the extent allowed as a relaxation under the

provisions of Clause 4.4.1.(b). In case the PSP is utilized as the ESS component and the same is located as a standalone component, grid charging of the ESS shall be permitted for the energy scheduled from the corresponding solar PV component set up at a different location, except to the extent allowed as a relaxation under the provisions of Clause 4.4.1.(b).

4.4.1 (b) Shortfall in supply of energy during Peak Hours

In case of any shortfall in supply of Power during the Peak Hours as notified by the Buying Entity, from the mandated supply of energy (i.e. up to 200 MWh for each 100 MW capacity), the SPD shall pay a penalty corresponding to the energy shortfall, calculated as $1.5 \times \text{PPA Tariff}$. For the purpose of calculation of shortfall in energy supplied during Peak Hours, a 'month' shall be the billing month as defined in the PPA. This shortfall shall be calculated against the energy that is required to be supplied by the SPD during that month, which shall be based on sum of Peak Hours of that month (energy to be supplied in each Peak Hour shall be 0.333 MWh for 1 MW Contracted Capacity).

This penalty will be levied over and above the penalty for shortfall in meeting the minimum annual CUF requirement as per this Article.

Such shortfall shall be permissible up to 30% below the energy requirement by the Buying Entity during Peak Hours, on a monthly basis, and up to 15% below the energy requirement on an annual basis. The monthly shortfall will be calculated such that penalty will be levied on the average monthly shortfall beyond 30%. For the annual shortfall beyond 15%, penalty will be calculated on annual basis. In a Contract Year, the higher of these two penalties (monthly shortfall and annual shortfall) shall be applicable, and the remaining penalty amount (based on difference of applicable penalty for that Contract Year and penalty levied for the 11 months in that Contract Year) shall be levied in the last month of the Contract Year.

For e.g. If for a Contract Year, the sum of penalties for all the 12 months comes out to be Rs. 2 Lakhs and the penalty for shortfall in annual shortfall comes out to be Rs. 2.2 Lakhs, the applicable penalty for that Contract Year shall be Rs. 2.2 Lakhs. And if the penalty levied on the SPD till 11 months of that Contract Year is Rs. 1.7 Lakhs, the penalty imposed in the last month will be Rs. 0.5 Lakhs.

The SPD shall offer power such that 100% of the annual energy offered corresponds to Solar power. The SPD can, however, source up to 5% RE power (in energy terms), on annual basis, from the green market sources/bilateral agreements, towards meeting

DISCOM-SPD PPA

the supply conditions stipulated in this Agreement. This energy may be supplied directly to meet the supply requirements during Peak Hours or off-Peak Hours and/or utilized for charging the ESS for subsequent supply from the ESS during Peak Hours.

It is hereby clarified that for supply of power in hours other than Peak Hours, the penalty on account of shortfall in meeting the minimum energy requirement as per Article 4.4.1 shall be levied annually and for supply of power during the Peak Hours, the penalty on account of shortfall in supply of energy during the Peak Hours shall be calculated on a monthly basis.

For example, considering energy supply during Peak Hours for the month of April, the SPD was required to supply 3 MUs during Peak Hours and the SPD supplies 2 MUs during this month, then the applicable penalty for shortfall in supply during Peak Hours for this month will be Rs. 4.05 Lakhs $[(0.70 \times 3 - 2) \times 2.7 \times 1.5]$ (considering the tariff of Rs. 2.7/kWh). This penalty will be separate from the penalty for shortfall in meeting the minimum annual CUF requirement, which is applicable for supply of power in hours other than Peak Hours.

4.4.1 (c) The detailed list of documents required for verification of energy supply and performance of the Projects will be intimated to the SPDs subsequent to commissioning

(i) For each Month, the above data will be required to be submitted by the respective SPDs to **Insert Name of the DISCOM** within 7 days after expiry of the previous Month, for verification of the performance parameters for calculating applicable penalty on account of shortfall.

(ii) For each Contract Year, the above data will be required to be submitted by the respective SPDs to **Insert Name of the DISCOM** within 30 days after expiry of the previous Contract Year, for verification of the performance parameters for calculating applicable penalty on account of shortfall.

4.4.1 (d) The SPD is required to schedule energy more than the minimum obligated energy range (in Peak Hours and hours other than Peak Hours) to avoid penalty.

4.4.2 Any excess generation over and above as per Article 4.4.1, may be purchased by **Insert Name of the DISCOM** at the applicable tariff as per Article 9. While the SPD would be free to install the DC solar field as per its design of required output,

including its requirement of auxiliary consumption and to repower the Project from time to time during the term of the PPA, it will not be allowed to sell any excess power to any other entity other than **Insert Name of the DISCOM** (unless refused by **Insert Name of the DISCOM**). The SPD shall be required to intimate **Insert Name of the DISCOM** about the proposed excess quantum of energy likely to be generated from the Project within any Contract Year, at least 60 days prior to the proposed date of commencement of excess generation in that Contract Year. **Insert Name of the DISCOM** shall be required to intimate its approval/refusal to the SPD, for buying such excess generation not later than 15 days of receiving the above offer from the SPD. In the event the offer of the SPD is not accepted by **Insert Name of the DISCOM** within the said period of 15 days, such right shall cease to exist and the SPD shall, at its sole discretion, may sell such excess power to any third party.

However, in case at any point of time, the peak of capacity reached is higher than the Contracted Capacity and causes disturbance in the system at the point where power is injected, the SPD will have to forego the excess generation and reduce the output to the rated capacity and shall also have to pay the penalty/charges (if applicable) as per applicable regulations / requirements / guidelines of CERC / SERC /SLDC or any other competent agency.

- 4.4.3 The SPD agrees that the methodology specified hereinabove for calculation of compensation in the form of penalties payable by the SPD as indicated above is a genuine and accurate pre-estimation of the actual loss that will be suffered by Insert Name of the DISCOM. SPD shall further acknowledge that a breach of any of the obligations contained herein result in injuries and that the amount of the penalty or the method of calculating the penalty specified in this document is a genuine and reasonable pre-estimate of the penalty that may be suffered by the Insert Name of the DISCOM in each case specified under this Agreement.
- 4.4.4 The parties agree that penalties shall not be applicable in events of Force Majeure identified under the PPA, affecting supply of power by the SPD. SPD shall not be liable to pay any penalty whatsoever including consequential damages for any shortfall in generation in excess of what becomes payable under Article 4.4.1 and/or Article 4.6.

- a) any **Insert Name of the DISCOM** Event of Default; or
 - b) Force Majeure Events affecting **Insert Name of the DISCOM** , or
 - c) Force Majeure Events affecting the SPD,
- the SCSD and the Expiry Date shall be deferred, for a reasonable period but not less than ‘day for day’ basis, to permit the SPD or **Insert Name of the DISCOM** through the use of due diligence, to overcome the effects of the Force Majeure Events affecting the SPD or **Insert Name of the DISCOM** or till such time such Event of Default is rectified by **Insert Name of the DISCOM**.

4.5.2 Subsequent to grant of connectivity, in case there is a delay in Start Date of Connectivity by the CTU/Telangana STU and/or there is a delay in readiness of the ISTS/Telangana STU substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS/Telangana STU network until SCSD of the Project, and it is established that:

- (i) The SPD has complied with the complete application formalities as per RfS,
- (ii) The SPD has adhered to the applicable Procedure in this regard as notified by the CERC/CTU/SERC/Telangana STU, and
- (iii) The delay in Start Date of Connectivity and/or delay in readiness of the ISTS/Telangana STU substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS/Telangana STU network, is solely attributable to the CTU/transmission licensee/Telangana STU and is beyond the control of the SPD;

The above shall be treated as delays beyond the control of the SPD and SCSD for such Projects shall be revised as the date as on 60 days subsequent to the readiness of the Delivery Point and power evacuation infrastructure and/or Start Date of Connectivity. Decision on requisite extension on account of the above factor shall be taken by TGREDCO/ **Insert Name of the DISCOM**. In case of change in Project location(s) by the SPD, extension requests under this Article shall be dealt by TGREDCO/ **Insert Name of the DISCOM** on case-to-case basis. For avoidance of ambiguity, it is clarified that for decisions made under this Article, the phrase “change in Project location” or its similar connotations, shall refer solely to change in Delivery Point(s) of the Project.

- 4.5.3 In case of extension due to reasons specified in Article 4.5.1(b) and (c), and if such Force Majeure Event continues even after a maximum period of nine (9) months from the date of the Force Majeure Notice, termination of this Agreement shall be caused solely at the discretion of **Insert Name of the DISCOM**, as per the provisions of Article 13.5.
- 4.5.4 If the Parties have not agreed, within thirty (30) days after the affected Party's performance has ceased to be affected by the relevant circumstance, on the time period by which the SCSD or the Expiry Date should be deferred, either Party may raise the Dispute to be resolved in accordance with Article 16.
- 4.5.5 As a result of such extension on account of Article 4.5.1 or Article 4.5.2, the newly determined SCSD and newly determined Expiry Date shall be deemed to be the SCSD and the Expiry Date for the purposes of this Agreement.
- 4.5.6 Further, any delay in adoption of tariff by the Appropriate Commission and/or Contracted Capacity approval from SERC, beyond 60 days of submission of petition for adoption of tariff/Contracted Capacity approval before the Appropriate Commission/SERC or 120 days from the date of signing of PPA, whichever is more, shall entail a corresponding extension in the SCSD, in line with provisions of Article 2.1.4 of this Agreement.
- 4.5.7 Delay in Commissioning from the project beyond the SCSD for reasons other than those specified in Article 4.5.1 & Article 4.5.2 shall be an event of default on part of the SPD and shall be subject to the consequences specified in the Article 4.6.

4.6 *Penalty for delay in Commissioning*

- 4.6.1 The SPD shall commence supply of power from the full Project Capacity (including the ESS capacity) within SCSD as defined in this Agreement. If the SPD is unable to commence power supply from the Project by the SCSD for the reasons other than those specified in Article 4.5.1 and 4.5.2, the SPD shall pay to **Insert Name of the DISCOM**, penalty for the delay in such Commissioning and making the Contracted Capacity available for dispatch by the SCSD as per the following:
- (a) Delay beyond the SCSD upto (& including) the date as on 6 months after the SCSD or the extended SCSD, if applicable: The total PBG/POI/Surety Bond amount shall be encashed on pro-rata basis and proportionate to the Project capacity that has not commenced supply of power

- 4.6.2 The maximum time period allowed for Commissioning from the full Project Capacity with encashment of Performance Bank Guarantee/ Payment on Order Instrument shall be limited to 6 months after the SCSD/extended SCSD of the Project. In case, the Commissioning from the Project is delayed beyond 6 months after the SCSD/ extended SCSD, the Contracted Capacity shall stand reduced / amended to the capacity corresponding to the Project Capacity that has commenced power supply until the date as on 6 months after the SCSD/ extended SCSD and the PPA for the balance capacity will stand terminated and shall be reduced from the Contracted Capacity.
- 4.6.3 The SPD acknowledges and accepts that the methodology specified herein above for calculation of penalty payable by the SPD is a genuine and accurate pre-estimation of the actual loss that will be suffered by **Insert Name of the DISCOM**. SPD further acknowledges that a breach of any of the obligations contained herein result in injuries and that the amount of the penalty or the method of calculating the penalty specified in this Agreement is a genuine and reasonable pre-estimate of the damages that may be suffered by the **Insert Name of the DISCOM** in each case specified under this Agreement.
- 4.6.4 In case of part-Commissioning subsequent to the SCSD, encashment of PBG shall take place upon Commissioning from each part capacity, in case of no request for time extension of such part capacity pending with **Insert Name of the DISCOM**.

4.10 Generation compensation for Off-take constraints

4.10.1 Generation Compensation in offtake constraints due to Grid Unavailability: During the operation of the plant, there can be some periods where the Project can generate power but due to temporary transmission unavailability, the power is not evacuated, for reasons not attributable to the Solar Power Developer. In such cases, subject to the submission of documentary evidences from the competent authority, the generation compensation shall be restricted and payable by the Buying Entity(ies) as under and there shall be no other claim, directly or indirectly against **Insert Name of the DISCOM**:

Duration of Grid unavailability	Provision for Generation Compensation
Grid unavailability beyond 175 hours in a Contract Year (as defined in Article 1)	Generation Compensation= ((Tariff X Solar Power (MW) offered but not scheduled by the Buying Entity)) X 1000 X No. of hours of grid unavailability. However, in the case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realized, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.

Compensation (if any) calculated as per above provision, will be paid to the SPD on an annual basis.

4.10.2 Payment in case of reduced off take: The SPD and the **Insert Name of the DISCOM** shall follow the forecasting and scheduling process as per the regulations in this regard by the Appropriate Commission. In case the plant is available to

Reduced Off-take	Provision for Generation Compensation
Reduced off-take beyond 175 hours in a Contract Year (as defined in Article 1)	<i>Generation Compensation=</i> <i>(Applicable Tariff X Solar PV Power (MW) offered but not scheduled by the Buying Entity) X 1000 X no. of hours of Reduced Off take.</i> However, in the case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realized, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.

4.10.3 For claiming compensation, the SPD must sell their power in the power exchange as a price taker. Thus, the compensation would be limited to the difference of the actual generation up to declared capacity subject to a maximum of up to the Contracted Capacity and the quantum of power scheduled by the **Insert Name of the DISCOM**.

4.10.4 The SPD shall be eligible for payment from the **Insert Name of the DISCOM**, corresponding to the reduced offtake of power as per above mentioned methodology. The Payment is to be done as part of the energy bill for the successive month after receipt of Energy Accounts (REA)/SEA/JMR. It is hereby clarified that for the purpose of Article 4.10, “generation” shall mean scheduled energy based on Energy Accounts. The SPD shall not be eligible for any compensation in case the Backdown is on account of events like consideration of grid security or safety of any equipment or personnel or other such conditions or Force Majeure.

- b. change in respect of deviation settlement charges or frequency intervals by an Appropriate Commission.
- c. Any Change in Law event occurring after the SCSD/extended SCSD, which would not have affected the Project had the Project been commissioned before the SCSD/extended SCSD.

12.1.2 The term “law” in this Article includes any Act, Ordinance, order, bye-law, rule, regulation, and notification, for the time being in force, in the territory of India.

Then the modification in the monthly tariff (MT) for compensating the financial impact is given by $MT=(Y/X)$

Where X= estimated monthly electricity generation in kWh = (1/12) x [Contracted Capacity of the power plant as per the Agreement (in MW) x CUF in % x 8760 hours x 10] &

$$Y = \frac{(P \times M_r)(1 + M_r)^n}{(1 + M_r)^n - 1}$$

Where, -

N=No. of months over which the financial impact has to be paid (subject to maximum of 180 months in case of the non-recurring fixed amount but in case of recurring impact it will be till the impact persists);

M_r =monthly rate of interest= $R/(12 \times 100)$ and

CUF = declared or revised CUF as indicated in the Agreement;

R = annual rate of interest on loan component (in %) as considered by the CERC in its order for Tariff Determination from Conventional or Renewable Energy Sources (whichever is applicable) for the year in which the Project is commissioned. In absence of relevant orders of CERC for the concerned year, the interest rate shall be average interest rate plus 200 basis points above the average State Bank of India marginal cost of funds based leading rate, of one-year tenor, prevalent during the last available six months for such period.

Further, the SPD shall true up the MT annually based on actual generation of the year so as to ensure that the payment to the affected party is capped at the yearly annuity amount.

Any such change, shall be considered upto three digits after the decimal point, and remaining digits, if any, shall be ignored.

For e.g. in case the change in tariff payable is calculated as Rs. 0.14678/kWh, it shall be modified as Rs. 0.146/kWh

12.2.6 The recovery of the impacted amount, in case of the fixed amount shall be,

- a. In case of generation project, within a period of one-hundred eighty months; or
- b. In case of recurring impact, until the impact persists.

12.2.7 The SPD shall, within thirty days of the coming into effect of the recovery of impact of change in law, furnish all relevant documents along with the details of calculation to the Appropriate Commission for adjustment of the amount of the impact in the monthly tariff or charges.

12.2.8 The Appropriate Commission shall verify the calculation and adjust the amount of the impact in the monthly tariff or charges within sixty days from the date of receipt of the relevant documents under clause 12.2.7.

12.2.9 After the adjustment of the amount of the impact in the monthly tariff or charges under clause 12.2.8, the SPD, shall adjust the monthly tariff or charges annually based on actual amount recovered, to ensure that the payment to the affected party is not more than the yearly annuity amount.

12.2.12 “Project Cost” wherever applicable under this Article, shall mean the cost incurred by the SPD towards supply and services only for the Project concerned, upto the actual date of Commissioning from the last part capacity or upto the SCSD/extended SCSD, whichever is earlier. For example, in case the date of actual Commissioning from the last part capacity is 15.04.2024, SCSD is 15.03.2024 and extended SCSD is 01.04.2024, the Project Cost shall be determined as the cost incurred by the SPD upto 01.04.2024.
